

FF FIX PRO

CONSERVATION AGENT.

DESCRIPTION

FF FIX PRO MATT is a polyurethane resin-based product for the maintenance of particularly damaged and heavily trafficked wooden, resin, microcement and resilient floors such as LVT, PVC or linoleum.

APPLICATION

Shake thoroughly before use. Ensure that the surface is dry, degreased and cleaned of wax and dust. Then clean the surface with FESTCleaner according to the instructions. Once the surface has been cleaned, you can proceed with the application of FF FIX PRO MATT. Wipe the floor gently with a cloth and water, pour a small amount of FF FIX PRO MATT on and proceed with the application, taking care to distribute the product evenly without leaving an excessive amount on the working surface.

CAUTIONS: Re-use of the floor can be started after 2-3h. Avoid moving furniture and carpets before 12-24h after application. The next cleaning can be carried out after three days using suitable detergents. A preliminary test is recommended to check the adhesion to the substrate.

PACKAGING

1 L / 40-60 m²

STORAGE

Storage stability 1 year in original sealed containers at +10°C to +25°C.

SECURITY MEASURES

WARNING: Keep out of the reach of children. Have the product packaging or label at hand in case you need to seek medical advice.
