

# NANO SILVER PLUS WB

Special additive with silver ions  
for water-based varnishes

## DESCRIPTION

**NANO SILVER PLUS WB** - special additive formulated with silver ions, that, when added to water based varnish PU FEST 2K creates a hygienic protective coating. NANO SILVER PLUS WB - doesn't alter any of the lacquer's properties (hardness, gloss level, viscosity, mechanical and chemical resistances etc). Certified according to ISO 22196.

## APPLICATION

Shake well before use. Add **NANO SILVER PLUS WB** into PU FEST 2K in a ratio of 2% to the sum of components A and B of the varnish. Mix thoroughly. Apply with a microfiber roller, just like other varnishes from the Festfloor line. Can be used with the addition of 3K PLUS.

It is not recommended to add more than the recommended amount of NANO SILVER PLUS WB component.

- To the PU FEST 2K varnish (5kg + 1kg) add **NANO SILVER PLUS WB** with a capacity of 120g.
- To the PU FEST 2K varnish (1kg + 0,2kg) add **NANO SILVER PLUS WB** with a capacity of 25g.

## TECHNICAL DATA

- Color: colorless
- Application temperature: +15°C ÷ +25°C
- Light foot traffic possible after 24 hours, full load after 7 days
- Open time: 1 hour
- Shelf life: 12 months if in original sealed containers at temperatures between +10°C and +25°C

## PACKAGING

**NANO SILVER PLUS WB** is available in packages:

- 120g,
- 25g.

## SAFETY AND HEALTH

H318 - Causes serious eye damage. H317 - May cause an allergic skin reaction. H400 - Very toxic to aquatic organisms. H411 - Toxic to aquatic life with long lasting effects.
